SUPPORT THE ARTS FOR A BETTER WORLD

Since 1924, Ecolint offers students an international education of the highest standard, enabling them to become true citizens of the world. Since its opening in 2014, the Centre des arts has offered a committed educational and cultural programme and it is a venue for the transmission of the arts and the promotion of new technologies. Designed to revitalise the teaching of the arts on the campus of La Grande Boissière, the Centre des arts also exists to build bridges between Ecolint and our local and regional environment.

The Centre des arts hosts staged productions, workshops and conferences, and welcomes artists in residence. Through its programming and the development of partnerships with local and international artistic communities, it greatly enriches the teaching programmes at Ecolint. Open to a range of different audiences, it provides Geneva with a genuine cultural platform for the transmission of the arts and interdisciplinary exchanges.

We are delighted to introduce the Circle of Friends of the Centre des arts, which hopes to offer a high-quality, dynamic and creative programme to the Ecolint and local communities, thanks to the support of its members. Joining the Circle of Friends is a commitment that allows the Centre des arts to pursue its educational and cultural mission.

WHY SUPPORT THE CENTRE DES ARTS?

A unique concept within a school

Today, more than ever, we are convinced that art and creativity are strong values in the personal development of each individual but also represent a responsibility and major support in education. By joining the Circle of Friends you help the Centre des arts develop new artistic experiences that foster students' skills and creativity as individuals and citizens of the world, while also giving open access to exceptional encounters and opportunities to the Geneva community.

The Centre des arts encourages creativity and pushes students, artists and audiences to move beyond the imagination. Together with the pedagogical teams at La Grande Boissière, it contributes significantly to implementing ambitious artistic programmes that shape the learners who gather on and around our stages.

In a world where technologies are accelerating and where creativity is necessary in the search for solutions for the future, art takes centre stage in 21st-century education.

Since the Centre des arts' opening, our students have been encountering professional artists, whose work is in line with the curriculum and the values promoted by Ecolint. Through workshops, masterclasses, artistic residences, performances or conferences, students benefit from unique cultural mediations.

THANK YOU FOR YOUR SUPPORT!
